

# Personal Hub

A walkthrough of every feature

Built with Next.js + Django REST Framework.

Session auth + CSRF, every page gated behind login.

Nine feature areas, all in one app.

# ■ Login, Register & Logout

---

*Session-based auth with CSRF protection.*

- Register a new account with username + password (email optional).
- Log in to land on your personalised home page.
- Logout button lives at the bottom of the sidebar.
- All feature pages are gated — anonymous visitors are redirected to /login.

# ■ Home

---

*A personal welcome screen.*

- Greets you by your username after login.
- Acts as the landing page once you sign in.

# ■ To Do

---

*Plain, fast task list.*

- Add tasks with a single input field.
- Tick the checkbox to mark a task done (strikethrough style).
- Inline edit and delete with confirmation.

# ■ Bucket List

---

*Things you want to do, someday.*

- Add bucket-list items, mark them complete when achieved.
- Edit and delete just like the To Do list.

**screenshot placeholder**

# ■ Ideas

---

*Capture ideas with images and status.*

- Each idea has a title, description, optional image, and status (New / In Progress / Done / Archived).
- Search box filters across title, description, and status.
- Inline status dropdown to move ideas through the pipeline.

**screenshot placeholder**

# ■ Resume

---

*Track job applications.*

- Upload your resume file alongside each application.
- Statuses to track where each application stands (Applied, Interview, Offer, Rejected, etc.).
- Search and filter to keep your pipeline tidy.

**screenshot placeholder**

# ■ Projects

---

*Your portfolio of builds.*

- Track each project with description, status, and details.
- Sortable list view to spot what is shipping next.

# ■ Today's Learning

---

*A daily log of what you learned.*

- Jot down what you picked up each day.
- Browse history to see your progression over time.

**screenshot placeholder**

# ■ Passwords

---

*A private credentials vault.*

- Store site, username, and password entries in one place.
- Gated behind login so only you can see them.

# ■ Drawing

---

*A built-in sketchpad powered by Konva.*

- Free-draw on a canvas with adjustable brush.
- Save sketches and revisit them later.
